

CALL FOR PANELS AND TUTORIALS

CALL FOR PANELS

The conference programme will include a number of panels aligned with the conference theme. A successful panel proposal shall consider the conference theme and include speakers who present the topic from multiple perspectives. Moreover, speakers shall not convey identical views; instead a clash of positions shall be evident in the panel proposal and of course in the presentations and discussions in the panel. Panel submissions shall be made to Technical Program Chair [Rick Adcock](#) no later than Monday, December 7th 2009.

CALL FOR TUTORIALS

The conference programme will also include a number of tutorials aligned with the conference theme. Tutorial submissions shall preferably be aligned with the conference theme, but tutorial proposals on general systems engineering will also be considered. Tutorial submissions shall be made to Technical Program Chair [Rick Adcock](#) no later than Monday, December 7th 2009.
